

Desmos calculators are available on the MAP Growth Test. The calculators you'll see on your exam may differ from what's available for free on [desmos.com](https://desmos.com).

Note: These exams use slightly older versions of the Desmos Testing Calculators. As a result, they won't have the capabilities, accessibility features, or bug fixes we've introduced since April 2024. Visit [What's New at Desmos Studio](#) to learn when certain updates took place.

## Four-Function Calculator: MAP Growth 2-5, 6+

The Four-Function Calculator does not differ significantly from the one on [desmos.com](https://desmos.com).

## Scientific Calculator: MAP Growth 6+

Notable new feature

[Complex numbers](#) are unavailable on your test.

If you'd like to practice using the testing versions of the calculators, which are configured with the listed changes, visit our [Testing page](#). All Desmos calculators are designed to be accessible to students with low vision or who are blind. For more information, visit our [Accessibility page](#).
