Texas

Desmos calculators are available on the STAAR Assessments. The calculators you'll see on your exam may differ from what's available for free on desmos.com.

Scientific Calculator: Grade 8 Science

Complex numbers	Complex numbers are disabled on your test.
Function definitions	You cannot define functions on your test.

Graphing Calculator: Grade 8, Algebra 1

Images, folders, and notes	Images, folders, and notes are disabled on your test.
Default angle mode	The calculator on your test defaults to degrees (rather than radians like on desmos.com).
Graph implicit equations	The calculator does not graph equations defined implicitly.
Graph inequalities	The calculator on your test does not graph inequalities.
Log Mode for regressions	The calculator on your test automatically checks <u>Log Mode</u> when working with applicable exponential, logarithmic, and power regressions.
Sliders	The calculator on your test does not add sliders when you input free variables.
Disabled functions by category	The following functions are disabled on your test: • Trig functions, hyperbolic functions, and their inverses: csc, sec, cot, arccsc, arcsec, arccot, csch, sech, coth, arccsch, arccoth, arcsech • Statistics: mad, cov, covp • Geometry: distance, midpoint Learn more about these functions on our Supported Functions page.

If you'd like to practice using the testing versions of the calculators, which are configured with the listed changes, visit our Testing page. All Desmos calculators are designed to be accessible to students with low vision or who are blind. For more information, visit our Accessibility page.
